EOS 6D

Stopped working

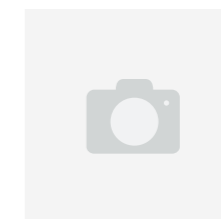

The first sign was that the wifi stopped working, then the whole camera stopped working altogether.

C

Should use standard micro USB charger

The camera should use a standard micro USB for charging. This would be easier to replace.

Is too heavy, hard to always have with me

It would be great if from my Apple watch I could open and close my garage door when leaving the house.

Should have a way to remove or reorder non custom sections like "Web References" and "Work Experience"

Status: OPENED

Workarounds: 2

Viewed: 1445

Just started using Behance.net, and it is my favorite portfolio site, but I have one gripe. I wish I could remove the Web References and Work Experience section from my profile. If anything, it would be nice to at least be able to reorder them at the bottom. Its frustrating to have empty space in my profile!

Loving this design! Keep it up guys! I must show this to the guys over at Square. By the way; Thanks for the heads up on Sketch, It's a really useful tool and I'm delighted you showed it to me.
